

Tend-R-Leen 375 Beef 36-12 NM

A pelleted, non-medicated, 36% protein supplement for finishing beef cattle and dairy steers on a no-roughage program from 450 pounds or 6 months of age to finish.

FEATURES:

- **Complete diet** - when mixed with whole corn and supplemented with minerals.
- **Contains highly digestible fiber sources** - the inclusion of fiber eliminates the need for harder to handle, bulkier forage ingredients.
- **Added zinc** - promotes good hoof structure.
- **Vitamin fortified** - Vitamins A, D, E & B complex are vital dietary nutrients in high corn diets. They regulate and control metabolic processes.

BENEFITS:

- **Convenient** - eliminates the need to purchase, handle and store other feedstuffs.
- **Non-medicated** - for feeding programs that prefer or require a non-medicated supplement.

RECOMMENDED USAGE:

For Beef Cattle: Feed 1 ½ pounds of Tend-R-Leen Beef Formula per head per day, increasing the amount of whole shell corn fed as consumption increases as the table indicates.

Age in months	Approximate Weight	Approximate Total Consumption/Head/Day	Ratio of 375 to Whole Shell Corn
6	441-542 lbs.	14-16 lbs.	1:8
7	542-654 lbs.	16-18 lbs.	1:10
8 - finish	654-1297 lbs.	18+ lbs.	1:11

To convert roughage fed cattle to no-roughage feeding, use 393 Tend-R-Leen Beef Starter. 375 requires additional mineral & vitamin supplementation for maximum gains. Animals on the Tend-R-Leen program should have access to feed, water and trace mineral salt at all times.

Control Number: NR 39375-321 bulk
NR 39375-322 50 lb.
ST 37375-321 bulk
ST 37375-322 50 lb.

NUTRIENT ANALYSIS

Crude Protein, min	36.00%
<i>This includes not more than 12.0 % equivalent crude protein from non-protein nitrogen</i>	
Crude Fat, min	1.00%
Crude Fiber, max	13.00%
Acid Detergent Fiber, max	19.00%
