

**INTRODUCING: AN INNOVATIVE NEW PRODUCT FROM FORM-A-FEED!**

Product Code: 10376727

# DURA-BLOCK

## A Block to Help Reduce Pig Vices.

*A palatable block product used as an aid to occupy and satiate pigs that may be tailbiting or performing other vice behaviors in response to diet changes. Dura-Block provides a reliable, cost-effective option to improve animal welfare by lowering stress and satiating pigs, resulting in reduced expression of negative vice behaviors.*

### DIRECTIONS FOR USE:

Tap to remove Dura-Block from the pail and place in pen on the floor. Use a minimum of 1 40lb block per 20 to 40 head of pigs. If conditions warrant additional blocks can be used.

### FEATURES:

- Magnesium Oxide** - long used standard for treatment of tail biting.
- Palatable** – molasses and other natural flavors appeal to pigs.
- Durable** – designed to last several weeks in pens, providing prolonged value and positive impact on pig behavior.

### BENEFITS:

- Improved satiety** - pigs feel more content and are less likely to revert to vice behaviors to fill a void.
- Reduced stress** – functional ingredients result in reduction of stress hormone cortisol and increase in relaxing hormone serotonin.
- Convenient application** – use in pens proactively to avoid initiation of vice behavior, or strategically place in problem pens to minimize aggressiveness when vice behaviors already exist.

Offer Extended To  
July 15<sup>th</sup>!
