OF REJUVE BETWEEN
JULY 12 - AUG 31, 2021 &
SAVE \$12
PER BOX!**

*Must purchase full box quantities.

Product code: 11066185

What sets Rejuve apart?

Designed to be fed to nursery, growing, and finishing pigs, Rejuve is a synergistic blend of copper sulfate, palatable acidifiers, essential oils, and FOS which rejuvenates the pig's lower gut and gets them back on the right track!

Fast acting - no waiting for dry feed interventions; quick and easy application with this water soluble solution.

Improved digestive health - less energy spent on immune response; greater ability to absorb nutrients.

Improved performance - turn pigs around after digestive upsets faster; quicker return to normal intake and weight gain patterns.

Not an antibiotic - no restrictions on use and no paperwork to file.
