Form A Calf™

Scouring Calf Protocol

STEP 1:

Form-A-Calf Renew

Clean the calf's GI tract.

A nutraceutical bolus with essential oils and probiotics (beneficial bacteria)

Give one capsule of Calf Renew and repeat on day 2 or 3 if needed (do not exceed 3 boluses).

Available size: 36 boluses per jar

STEP 2:

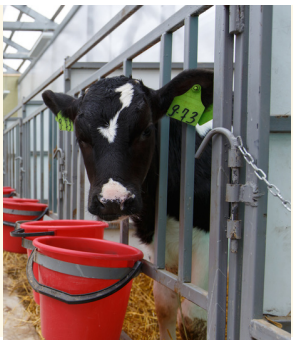
Form-A-Calf Electrolyte

Rehydrate and reinstate electrolyte balance.

A source of energy, electrolytes, osmolytes, buffers, and fructo-oligosaccharides

Days 1 & 2: Mix 1 scoop (3.2 oz) into 2 quarts of warm water and feed at least twice daily between milk feedings.

Available sizes: 3.6 lb jar and 25 lb pail



STEP 3:

Form-A-Calf Probiotic Bolus

Repopulate the GI tract with beneficial microbials

High dose of live & viable beneficial microorganisms

Give one bolus of Probiotic Bolus per day for 3-5 days starting on the next day after Calf Renew administration.

Available size: 36 boluses per jar

STEP 4:

Form-A-Calf Probiotic Daily

Restore and maintain gut microbiome

Live and viable beneficial microorganisms

Feed one gram of Probiotic Daily per day mixed into pasteurized milk, milk replacer, or water.

Available sizes: 1.1 lb jar or 11 lb bag
